## Ontario's Best Public Schools: 2009-2011

### Hamilton / Niagara / Waterloo

District School Board of Niagara

Hamilton-Wentworth Catholic District School Board

Hamilton-Wentworth District School Board

Niagara Catholic District School Board

Waterloo Catholic District School Board

Waterloo Region District School Board

How do parents, teachers, taxpayers and school administrators know if children are attending a good school? A school cannot be considered a success just because a high percentage of its students are successful; nor can schools be meaningfully ranked on that basis. A school with strong standardized test results could simply be a school where students come from more advantaged backgrounds.

But not all variation in school results can be explained by variation in social and economic characteristics. By controlling for characteristics of schools' students and the communities they come from, we present a measure of success for each school when compared with similar schools. The schools are organized alphabetically by school board and then by school name.

### Description of Variables

**Students:** The number of students in either grade 3 or grade 6 who were eligible to take the Education Quality and Accountability Office (EQAO) test (three-year total).

**Pass Rate:** The percentage of all students who scored at Level 3 or Level 4 on EQAO tests. The number of students who score at Level 3 or Level 4 is divided by all students at the school in the relevant grade, whether they take the assessment or not. Pass rates are calculated using all three subjects – reading, writing and mathematics – and over three school years, 2008/09, 2009/10 and 2010/11.

***Adjusted Pass Rate:*** The difference between the school's pass rate and the provincial average pass rate. This is an average of the nine gaps between school and provincial pass rates, over three assessments and three years. A positive value indicates the school has a higher pass rate than the provincial average; a negative value indicates the opposite.

***Predicted Adjusted Pass Rate:*** The adjusted pass rate that a school would be expected to attain given the performance of other schools in similar socio-economic environments.

***Percentile:*** A performance measure adjusted for observable social and economic characteristics and variation in the average score on assessments. Percentiles go from 0 to 100. Schools that score exactly as predicted get a percentile of 50.

The predicted adjusted pass rate is subtracted from the actual adjusted pass rate and expressed as a percentile. A percentile value of 90 indicates that this school's outcome is higher than 90 percent of other schools in the province. A value of 10 indicates that this school's result is higher than only 10 percent of other schools or, equivalently, that 90 percent of schools score better than this school. One-unit differences in percentile ratings are not of any interest. It is the large gaps between the 90<sup>th</sup> percentile schools and the 10<sup>th</sup> percentile schools that are of the most interest.

***Tests Available:*** The number of assessments for which data is available for the school, out of a possible nine. If the available data is only from one of math or reading and writing, the number is followed by M or RW, respectively. Thus, 3M would indicate that the calculation was based on three math assessments, as data were not available for any of the six reading and writing assessments.

### **A note on missing values for some schools:**

Some schools' performance indicators are missing for two reasons. First, the results in a grade in a year at a school are suppressed by EQAO for privacy reasons when there are fewer than 15 students in the grade. Second, the predicted and percentile indicators for a given school and grade are shown only if outcomes for at least 45 students in total were available.

Please cite the source of these indicators as:

The David Johnson / C.D. Howe Institute Ontario School Performance Database (2012)

The details concerning the construction of these statistics can be found in:

Johnson, David, and Robbie Brydon (2012) Ontario's Best Public Schools: 2009-2011. C.D. Howe Institute e-brief 134, [http://www.cdhowe.org/pdf/e-brief\\_134.pdf](http://www.cdhowe.org/pdf/e-brief_134.pdf)

Researchers interested in obtaining this database in a useable electronic format to carry out their own research should contact the C.D. Howe Institute at [cdhowe@cdhowe.org](mailto:cdhowe@cdhowe.org) with a short description of their research project.
